You can break the stringent lines, make a smaller area - or an entire wall - and see how easy you can add warmth and dynamism to any room.

With FibroTech Acoustic Square Panels you can be your own designer and be creative in so many ways - when it comes to furnishing homes and offices. FibroTech Acoustic Square Panels is very easy to install by yourself - and they can be mounted on all types of walls - with FibroTech glue or with panel screws.

With FibroTech Acoustic Square Panels you get an acoustic absorption and a comfortable indoor climate, as the panels are made of 9 mm polyester, MDF and real wood veneer. This combination gives you not only a perfect acoustic - but also a very beautiful and unique look.

The all-important and effective back panel of polyester, is produced from recycled plastic out of respect and regards to our planet.

FibroTech Square Panels are 100% FSC certified. The used wood comes from sustainable forests. There is no illegal cutting and no threats to protected forests, so you can be creative, make your own pattern, turn them however you want - in good conscience.
